

OPENING OF THE ST. GEORGES LANDFILL SITE

Western Regional Waste Management and Bay St. George Waste Management are pleased to announce the opening of the St. Georges landfill site on Tuesday, January 3, 2012.

The hours of operation for this site are Tuesday to Saturday from 8am-4pm and the site will be accepting residential waste, commercial waste and household hazardous waste. The household hazardous waste will need to be separated from regular waste and the HHW items the site is accepting include paint, used oil, empty propane tanks and batteries.

The annual tipping fee is \$36 for residents and there will be no additional charge to residents bringing in their own garbage. The annual tipping fee is to be paid to the Municipal/Local Service District community office.

Commercial waste will be accepted at this site at a cost of \$25/tonne. This site has weigh scales in place to record the amount of waste being accepted. Payment can be made on site using Visa, MasterCard and Interact.

The opening of this site will result in the closure of the Gallants, Stephenville, Lourdes and Bay St. George South landfills, as well as the eventual closing of the Fox Island River landfill.

Western Regional Waste Management is currently working on a curbside collection service for areas which do not have collection contracts in place.

If you have any questions regarding what is, or isn't, accepted at the landfill site, please contact the St. Georges office at 647-3283.
